

## **Bug Report – BigBasket Android Application**

### **Project Details**

Application: BigBasket (Android)

App Version: 8.20.1

Tester Role: Manual QA Tester (Solo Project)

Device: Vivo Y73

OS: Android

Network: Wi-Fi

### **Bug 1**

**Title:** Sort option "Price: Low to High" does not apply correctly

**Severity:** Medium

**Priority:** Medium

#### **Steps to Reproduce:**

1. Launch the BigBasket application
2. Navigate to a product listing page
3. Tap on the Sort option
4. Select "Price: Low to High"

#### **Expected Result:**

Products should be sorted from low price to high price.

#### **Actual Result:**

Products are not sorted correctly after applying the sort option.

### **Bug 2**

**Title:** Sort option "Price: High to Low" does not apply correctly

**Severity:** Medium

**Priority:** Medium

#### **Steps to Reproduce:**

1. Launch the BigBasket application
2. Navigate to a product listing page
3. Tap on the Sort option
4. Select "Price: High to Low"

#### **Expected Result:**

Products should be sorted from high price to low price.

#### **Actual Result:**

Products are not sorted correctly after applying the sort option.

### **Overall Observation**

Both sorting options are not functioning as expected, which can negatively impact product discovery and user experience.
