XRAY

TEST EXECUTION

Android Manual Execution – Core E-commerce Features (BigBasket)

TABLE OF CONTENTS

1. Introduction

1.1. Document Overview

This Test Report provides a summary of a test execution. This document has been generated automatically from the test management platform.

1.2. Test Execution ECTP-36 Details

Description	This test execution covers **manual functional testing** of the **core e-commerce features** of the **BigBasket Android application** using **Jira and Xray**.
	The execution focused on validating **login and registration, location selection, product browsing and search, cart management, checkout access control, order history, customer support access, and logout functionality**. Both **positive and negative functional scenarios** were executed to verify that the application behaves as expected across key user shopping flows.
